EN_ Use L4 to connect the two Q1's together, and when the connection is complete, you will find that one side is high and the other is low.

When pushing Q1 into the frame of the gazebo, please pay attention to the direction, starting from the high side, which is more conducive to the slide of rain .

FR_ Utilisez L4 pour connecter les deux Q1 ensemble, et lorsque la connexion est terminée, vous constaterez qu'un côté est haut et l'autre bas.

Lorsque vous poussez Q1 dans le cadre de la gloriète, faites attention à la direction, en commençant par le côté haut, qui est plus propice au glissement de la pluie.

ES_ Utilice L4 para conectar los dos Q1 juntos, y cuando la conexión esté completa, verá que un lado es alto y el otro es bajo.

Al empujar Q1 en el marco de la glorieta, por favor, preste atención a la dirección, a partir de la parte alta, que es más propicio para el deslizamiento de la lluvia .

PT_ Utilizar L4 para ligar os dois Q1 e, quando a ligação estiver concluída, verificar-se-á que um lado é alto e o outro é baixo.

Ao empurrar o Q1 para dentro da estrutura do gazebo, preste atenção à direção, começando pelo lado alto, que é mais propicio ao deslizamento da chuva.

DE_ Verwenden Sie L4, um die beiden Q1 miteinander zu verbinden, und wenn die Verbindung hergestellt ist, werden Sie feststellen, dass eine Seite hoch und die andere niedrig ist.

Wenn Sie Q1 in den Rahmen des Pavillons schieben, achten Sie bitte auf die Richtung, beginnend mit der hohen Seite, die das Abrutschen von Regen begünstigt.

IT_ Con L4 si collegano i due Q1 e, una volta completato il collegamento, si noterà che un lato è alto e l'altro è basso.

Quando si inserisce il Q1 nel telaio del gazebo, prestare attenzione alla direzione, partendo dal lato alto, che favorisce maggiormente lo scorrimento della pioggia.
